NOTES FROM THE *DESIGNER:*

For Summer 2026, I have created a swimwear collection that feels as effortless and confident as the women who wear it. This season is about clean lines, sculpting fits, and sun-drenched simplicity – timeless shapes that move with the body and stand the test of time.

Each piece is thoughtfully constructed from modern, responsible materials: soft rib textures, honeycomb jersey, and smooth recycled nylon blends that feel like a second skin. Whether it's a classic tie-side brief, a sculpting underwired top, or a mid-waist silhouette, every style is designed to feel supportive, not restrictive.

Inspired by nostalgic tones and tactile surfaces — from chocolate chip browns to soft shell pinks — the collection celebrates the quiet strength of femininity. It's subtle but striking. Comfortable but elevated. Designed to be lived in — at the beach, by the pool, or layered with a shirt as the sun goes down.

This is beachwear made for movement, made for softness, and made for you.

***MATERIALS* - MADE FOR MOVEMENT**

Our Summer 2026 swimwear is crafted in thoughtfully selected materials that balance function, comfort, and conscious design. Whether you're diving into waves or simply soaking up the sun, each fabric is chosen to support and move with you – never against you.

We've worked with recycled nylon, recycled polyester, spandex, and soft drop-needle ribs to create silhouettes that feel sculpting yet gentle. These materials offer a sleek, second-skin sensation, high stretch recovery, and long-lasting quality – built to withstand sun, salt, and slow days by the water.

Some styles feature our honeycomb jersey with subtle texture and contrast edges. Others are made in seersucker-inspired rib, adding dimension without sacrificing comfort. Across all materials, we've prioritized softness, flexibility, and a flattering feel.

Because beachwear should do more than fit — it should free you to move, rest, and feel at home in your skin.

Why We Value a *Long-Term Partnership*

As professionals, partnerships hold significant value to us as they are crucial for our existence. Hence, we consistently strive to provide a straight forward and mutually beneficial business model for all parties involved. Our approach ensures that you, as our partner, are not burdened with unnecessary risks.

Consequently, we extend the following benefits to all our partners:

- Lucrative mark-ups
- No minimum purchase requirements
- Freedom to select styles and quantities
- Option to replenish stock during the season
- Free shipping for all orders exceeding 300,- EUR

Thanks to our strong professional alliances, our brand has flourished, enabling us to cater to a larger demographic of women throughout Europe.
